For the avoidance of doubt, where it is necessary to credit and reissue an Invoice for any reason, the payment term attributable to the original Invoice shall be applied to the re-issued Invoice, which could mean, in practice, a requirement for immediate settlement by you.
- 6.2A You shall submit a remittance to us in respect of each payment made (or credit as the case may be) at the time you make such payment (or credit) (and in any event no longer than fourteen (14) days after such payment (or credit) is made). - 6.3 We may at any time without notice to you, set off any of your liabilities to (i) any of our Associated Companies against any liability of us to you, whether such liability is present or future, liquidated or unliquidated and whether or not either liability exists under this Deemed Supply Contract, or (ii) Us in relation to any outstanding sum due by You pursuant to the terms of this Supply Contract against any overpayment received from You either under this Deemed Supply Contract, or another contract between You and Us or You and an Associated Company. Upon receipt of validated Consumption Data we will then be entitled to then be entitled but not obliged to issue Reconciliation Invoices, whether during or after the end of the Supply Period. For the avoidance of doubt, this Clause 6.10 survives termination of this Deemed Supply Contract.
- 6.11 If at any time during or after the Supply Period, one or more elements of the Charges are found to have been incorrectly calculated or wrongly omitted or included in any Invoice or where the Charges are based on Settled Data, then we shall be entitled but not obliged to issue a Reconciliation Invoice in respect of the same. For the avoidance of doubt, this Clause 6.11 survives termination of the Deemed Supply Contract.
- 6.12 In addition to the provisions of Clause 6.11, we are entitled but not obliged to issue Reconciliation Invoices during or after the Supply Period in respect of any or all elements of the Charges. For Supply Periods greater than twelve (12) months, we will usually issue Reconciliation Invoices annually, but may do so more or less frequently.
- 6.13 You are entitled to request a Reconciliation Invoice of the Charges provided that:
- 6.13.1 there have been no previous Reconciliation Invoices issued in respect of that element of the Charges for the period in question within the last twelve (12) months; and
- 6.13.2 such request is received within twelve (12) months of (a) the Termination Date; or (b) the date of the last Invoice; or (c) our receipt of fully validated Consumption Data, whichever is the later.
- For the avoidance of doubt, this Clause 6.13 shall survive termination of the Supply Contract.
- 6.14 We shall be entitled to vary any component of the Charges by a reasonable and proportionate amount, at any time during the Supply Period, so as to minimise the amount of any Reconciliation Invoices. At your request we shall provide reasonable evidence to demonstrate why the Charges have been varied and to support our substitute Charges.
- 6.15 If Transmission Network Use of System Charges (“**TNUoS Charges**”) and/or the Capacity Market Charges, are specified in the Charges, payment will be in equal staged payments up to and including March of each year of this Supply Contract (based on forecast demand during times of peak system demand and the relevant daily charges). We are entitled but not obliged to issue Reconciliation Invoices in respect of the TNUoS Charges and/or Capacity Market Charges incurred.
- 6.16 Where Balancing Services Use of System Charges (“**BSUoS Charges**”) are specified in the Charges, they shall be charged on the basis of this Clause. BSUoS Charges will be invoiced based on our latest estimate of such charges. Reconciliation Final BSUoS Charges are published by the TNO sixteen (16) Working Days following the relevant period of consumption, therefore we will issue a Reconciliation Invoice to you one (1) calendar month in arrears. We are entitled, but not obliged, to issue further Reconciliation Invoices in respect of the BSUoS Charges, up to and including the Reconciliation Final publication by the TNO.
- 6.17 Where the Renewables Obligation is specified in the Charges, it will be charged to and recovered from you on the basis of this Clause:-
- 6.17.1 where the Renewables Obligation is included in the Charges, it will be determined by us and a Charge made to you based on our forecast of the Renewables Obligation Level and Buy-Out Price for each obligation period within the Supply Period. Where required an adjustment will be made by us and applied in the relevant Invoices to reflect the difference between our forecast of the Renewables Obligation Level and the actual Renewables Obligation Level and/or our forecast of the Buy-Out Price and the actual Buy-Out Price for an obligation period within the Supply Period ; or
- 6.17.2 where the Renewables Obligation is not included in the Charges, a Charge to you will be added to each Invoice to reflect the actual Renewables Obligation Level and Buy-Out Price for the relevant obligation period within the Supply Period.
- 6.18 Where CFD FIT Charge is specified in the Charges, it will be charged to and recovered from you on each Invoice based on our forecast of the estimated impact of the implementation and existence of the CFD FIT scheme in respect of your Supply. We shall be entitled to issue you with a Reconciliation Invoice (which will normally be on a quarterly basis in arrears) where there is a discrepancy between the amount we have charged you in respect of the CFD FIT scheme over that Reconciliation Period and the amount that, after our reconciliation, we have calculated as being reflective of the charges due under the CFD FIT scheme in respect of your Supply. We shall be entitled, but not obliged, to issue further Reconciliation Invoices in respect of the CFD FIT Charge, if volumes and therefore the industry costs of the CFD FIT scheme continue to evolve with the industry settlement runs.
- 6.19 Where Meter Rental is specified as “Pass-Through” in the Quotation Document, and where no direct contracts exist between you and a meter service provider, it will be charged at the prevailing weighted average rate incurred by us, or as otherwise determined as attributable to you by us, acting reasonably. In addition to the Metering Rental you shall be liable to pay any costs incurred by us where any Equipment not in situ at the Start Date is fitted at a Supply Point, including but not limited to installation and rental charges.
- 6.20 Where Feed in Tariff (FIT) Charge is specified in the Charges, it will be charged to and recovered from you on each Invoice based on our forecast of the estimated impact of the implementation and existence of the FIT scheme in respect of your Supply. We shall be entitled to issue you with a Reconciliation Invoice (which will normally be on a quarterly basis in arrears), where there is a discrepancy between the amount we have charged you in respect of the FIT Scheme over that Reconciliation Period and the amount that, after our

reconciliation, we have calculated as being reflective of the FiT Charges due under the FiT scheme in respect of your Supply. We are entitled, but not obliged, to issue further Reconciliation Invoices in respect of the FiT charges, in line with Ofgem's annual reconciliation process.

- 6.21 Where Assistance for Areas with Electricity High Distribution Costs (AAHEDC) charge is specified in the Charges, it will initially be invoiced to you based on our forecast of charges under this scheme. Once the TNO publishes the applicable rate, we will reconcile any previously invoiced month, and invoice the TNO rate for the remainder of the relevant charging year (April – March).
- 6.22 Where Distribution Use of System Charges (DUoS) Charge is specified in the Charges, it will be invoiced to you in accordance with the charging statements of the respective Distribution Network Operators or Independent Distribution Network Operators.
- 6.23 Transportation Costs are still payable by you for any Meter Points which remain energised even if they are not consuming electricity and regardless of whether the relevant costs are referred to in the Charges. Metering Costs and Meter Reading Costs are still payable by you for any meters which remain on site, even if they are not connected and regardless of whether the relevant costs are referred to in the Charges.
- 6.24A If at any time during the Deemed Supply Contract, you are classified within the Energy Intensive Industries and become exempt (whether in part or in full) from payment of charges associated with the Renewables Obligation FiT and CFD FIT scheme:
- 6.24A.1 the Parties shall act in good faith to renegotiate the Charges; and
- 6.24A.2 we shall be entitled to recover from you our reasonable costs and losses arising from any change in your classification as an EII.
- 6.24A.3 if at any time during the Deemed Supply Contract, you are subsequently re-classified as not falling within the Energy Intensive Industries, you shall once again be liable for payment of charges associated with Renewable Obligation, FiT and CFD FIT scheme and we shall be entitled to pass on all relevant charges to you. We shall be entitled to issue you with a Reconciliation Invoice in connection with such charges.
- 6.24B Where the Parties are unable to reach agreement under clause 6.24A.1, either Party shall be entitled to terminate the Supply Contract by providing thirty (30) days written notice to the other.
- 6.25 We shall be entitled to recover from you and you shall indemnify us in respect of a proportionate amount of any additional costs, charges, expenses or liabilities (collectively for the purposes of this clause, the “Costs”) which are incurred by us in supplying the electricity or are levied against us including (without limitation), where such Costs arise in the following circumstances:
- 6.25.1 from the imposition, or variation in the rate, of any energy-related tax, levy or duty;
- 6.25.2 as a direct or indirect result of (a) any imposition, revision, variation, amendment or change in interpretation, of any statute, statutory instrument, regulation, law, directive (“Legislation”) or the Industry Agreements; (b) any new Legislation or new Industry Agreements; or (c) any decision, direction, guidance, order or interpretation of Legislation or the Industry Agreements by the Authority or any other relevant regulatory body;
- 6.25.3 arising from compliance with any Costs levied upon us in respect of defaults of other suppliers in making payments to industry wide schemes;
- 6.25.4 as a result of, us fulfilling our or your obligations, or your failure to comply with your obligations, under any of the Industry Agreements in relation to safety issues or investigations in connection with any of the Supply Points;
- 6.25.5 where amounts are payable by us to any Service Provider, whether appointed by you or by us on your behalf;
- 6.25.6 where charges we incur change or arise due to changes in the Measurement Class, as defined in the Industry Agreements;
- 6.25.7 where you exceed the Maximum Supply Capacity;
- 6.25.8 where the Meter Points are Half-Hourly, changes occur in the Transmission Loss Factor mechanism, as defined in the Industry Agreements;
- 6.25.9 where the Meter Points are Non-Half Hourly, the cost of installing mandatory Half Hourly meters at any of the Supply Points;
- 6.25.10 changes to any of your MPAN details;
- 6.25.11 as a result of inaccurate metering equipment including programming, or due to default by the Service Provider;
- 6.25.12 relevant Elexon charges in accordance with the Industry Agreements;
- 6.25.13 the introduction of Feed in Tariffs (or any similar mechanism of whatever name or description); and
- 6.25.14 where we incur charges from Service Providers in relation to removal, discontinuance or transfer of the Equipment;
- 6.25.15 where we incur costs or loss as a consequence of error or omission by DNO or TNO and we are not able to recover such costs or loss from the DNO or TNO;
- 6.25.16 pursuant to the terms of our Licence, including, Costs incurred in connection with the scheme to assist areas with high

electricity distribution costs;

- 6.26.17 where any costs arise as a result of incorrect information provided by you at any time, including but not limited to incorrect MPAN information; and
  - 6.26.19 where any costs arise as a result of tariff re-classification by the DNO.
- 6.26 You recognise and agree that we shall not be required to obtain your consent to any change in Measurement Class or to the status of any Meter Points.
