We will be entitled but not obliged to issue Reconciliation Invoices at any time after receipt of validated Consumption Data, whether during or after the end of the Supply Period. For the avoidance of doubt, this Clause 6.10 survives termination of the Supply Contract.
- 6.12 If at any time during or after the Supply Period, one or more elements of the Charges are found to have been incorrectly calculated or wrongly omitted or included in any invoice or where the Charges are based on Settled Data, then we shall be entitled but not obliged to issue a Reconciliation Invoice in respect of the same. For the avoidance of doubt, this Clause 6.11 survives termination of the Supply Contract.

- For the avoidance of doubt, this Clause 6.14 survives termination of the Supply Contract.
- 6.15 We shall be entitled to vary any component of the Charges by a reasonable and proportionate amount at any time during the Supply Period, so as to minimise the amount of any Reconciliation Invoices. At your request we shall provide reasonable evidence to demonstrate why the Charges have been varied and to support our substitute Charges.
- 6.16 If over the whole of the Supply Period, the total invoiced consumption is outside the Consumption Threshold, we may recover additional Transportation Costs and/or Metering Costs incurred even if Transportation Costs and/or Metering Costs are "In Unit Rate" or "Fixed" in the Quotation Document.

If your classification in respect of the Climate Change Levy changes, you must notify us in writing within thirty (30) days of becoming aware of such change failing which, we will apply the Climate Change Levy in full.
- 6.19 Where Meter Rental is specified as "Pass-Through" in the Quotation Document, and where no direct contracts exist between you and a meter Service Provider, we will use reasonable endeavours to use the information provided to us to find a meter specific charge. If no meter specific charges can be found, it will be charged at the prevailing weighted average rate incurred by us, or as otherwise determined as attributable to you by us, acting reasonably. In addition to the Metering Rental you shall be liable to pay any costs incurred by us where any Equipment not in situ at the Signature Date is fitted at a Supply Point, including but not limited to installation and rental charges.
- 6.20 Transportation Costs are still payable by you for any Meter Points which remain connected even if they are not consuming gas and regardless of whether the relevant costs are referred to as "In Unit Rate", "Fixed" or "Pass-Through" in the Quotation Document. Metering Costs and Meter Reading Costs are still payable by you for any meters which remain on site, even if they are not connected and regardless of whether the relevant costs are referred to as "In Unit Rate", "Fixed" or "Pass-Through" in the Quotation Document.

- 6.21 We shall be entitled to recover from you and you shall indemnify us in respect of a proportionate amount of any additional costs, charges, expenses or liabilities (“Costs”) which are incurred by us in supplying the gas or are levied against us including, but not limited to, where such Costs arise in the following circumstances:
- 6.21.1 from the imposition, or variation in the rate, of any energy-related tax, levy or duty;
 - 6.21.2 as a direct or indirect result of; (a) any imposition, revision, variation, amendment or change in interpretation, of any statute, statutory instrument, regulation, law, directive (“Legislation”) or the Industry Agreements; (b) any new Legislation or new Industry Agreements; or (c) any decision, direction, guidance order or interpretation of Legislation or the Industry Agreements by the Authority or any other relevant regulatory body;
 - 6.21.3 as a result of us fulfilling our or your obligations or, your failure to comply with your obligations, under any of the Industry Agreements in relation to safety issues or investigations in connection with any of the Supply Points;
 - 6.21.4 any Supply Point being (or becoming known to be) reclassified or re-designated as daily metered;
 - 6.21.5 where any supply point ratchet charges arise from the Supply Point Capacity being exceeded or exit capacity overrun charges arise, which shall be payable monthly in arrears by you upon us notifying you of those charges arising;
 - 6.21.6 where the demand pattern of an NDM Supply Point is inconsistent with the End User Category assigned by the Transporter such that the Transporter assigns a different End User Category;
 - 6.21.7 where our costs increase due to changes to the method for apportioning the NDM error across different categories of consumer;
 - 6.21.8 as a result of inaccurate metering equipment including programming, or due to default by the Service Provider;
 - 6.21.9 where you fail to provide such data referred to in Clause 4.2.4 or the Transporter rejects the data you have provided, we reserve the right to alter the Charges to reflect any resulting increased costs;
 - 6.21.10 as a result of the cost of unidentified gas being passed on to gas suppliers through the Reconciliation by Difference or other mechanism; and
 - 6.21.11 where we incur charges from Service Providers in relation to removal, discontinuance or transfer of the Equipment;
 - 6.21.12 where we incur costs or loss as a consequence of error or omission by any Transporter and we are not able to recover such costs or loss from the Transporter;
 - 6.21.13 all costs whatsoever incurred by us pursuant to the terms of our Licence;
 - 6.21.14 where any costs arise as a result of incorrect information provided by you at any time (including at the time of quotation prior to the parties entering into the Supply Contract), including but not limited to incorrect MPAN information;
 - 6.21.15 where any costs arise as a result of tariff re-classification by the DNO; and
 - 6.21.16 arising from compliance with any Costs levied upon us in respect of defaults of other suppliers in making payments to industry wide schemes.

Consumption tolerance

- 6.22 For the purposes of Clauses 6.22, 6.23, 6.24 and 10.9.5 the following expressions shall have the following meanings:-
- 6.22.1 Consolidated Consumption Forecast means the Initial Consumption Forecast as replaced by any and all Revised Consumption Forecasts pursuant to Clauses 4 and 5;
 - 6.22.2 Consumption Threshold means the minimum and maximum percentage levels applicable to the Consumption Tolerance Forecast set out in the Quotation Document;
 - 6.22.3 Consumption Tolerance Forecast means the Consolidated Consumption Forecast apportioned monthly excluding, for the avoidance of doubt, the impact of any Supply Points added or removed during the Supply Period;
 - 6.22.4 Invoiced Consumption means the volume of gas invoiced in each Invoicing Period;
 - 6.22.5 Market Price means the unweighted arithmetic average of daily System Average Prices (as defined in the Industry Agreements) during the Invoicing Period;
 - 6.22.6 Minimum Consumption Threshold and Maximum Consumption Threshold shall mean respectively the minimum and maximum volumes of gas calculated as percentages of the Consolidated Consumption Forecast in accordance with the Consumption Threshold; and Reference Price means the monthly wholesale market price that was used by us for the calculation of the Charges.
- 6.23 At the end of the Supply Period or, for contracts greater than twelve (12) months, on an annual basis, we will be entitled but not obliged to compare Invoiced Consumption against the Consumption Tolerance Forecast apportioned monthly . If over the period the total Invoiced Consumption is outside the Consumption Threshold (calculated to three (3) decimal places), we shall be entitled to recover the additional costs of Supply calculated by reference to differences in volume and price as follows for each month:
- 6.23.1 where the monthly Invoiced Consumption is less than the apportioned monthly Minimum Consumption Threshold, the additional Costs of Supply shall be calculated as follows:-

(Invoiced Consumption – Minimum Consumption Threshold) x (Market Price – Reference Price) = the additional costs of Supply payable by you;
 - 6.23.2 where the monthly Invoice Consumption exceeds the apportioned monthly Maximum Consumption Threshold, the additional Costs of Supply shall be calculated as follows:-

(Invoiced Consumption – Maximum Consumption Threshold) x (Market Price – Reference Price) = the additional costs of Supply payable by you.

6.24 You agree that the additional costs of Supply calculated with reference to the consumption tolerance calculation set out above is a genuine pre-estimate of the loss we are likely to suffer in circumstances where your consumption is outside of the Consumption Threshold.

6.25 We will be entitled, where applicable, to include a Charge on each Invoice to reflect the Unidentified Gas Cost. We shall be entitled to issue you with a Reconciliation Invoice from time to time, whether during or after the Supply Period, where the actual costs we have incurred on your behalf differ from those we have included on your Invoice over the applicable Reconciliation Period.

7.10 We are entitled to require that equipment be removed, repaired or replaced where we consider it to be damaged, incorrectly recording data, past its certification date or incorrect for the product structure and you shall notify us immediately where you become aware of or suspect any such circumstances.

7.11 If, in accordance with the relevant provisions of the Act, either Party requires a meter examiner to examine any Meter Point provided for the purposes of ascertaining the quantity of gas supplied under this Supply Contract, then where the meter is found to register inaccurately to a degree exceeding that permitted by the Act:

7.11.1 the Meter Point shall be assumed to have registered inaccurately to the degrees so found since the penultimate date on which (otherwise than in connection with the examination) the Meter Point was read or some other date as determined for this purpose under the Act except in a case where it is proved to have begun to register inaccurately as described on some later date; and

7.11.2 the amount of allowance to be made to, or the surcharge to be made on you as a result of the inaccurate registration shall be paid to or by you within fifteen (15) days of notification of the adjustment.

Service Providers

7.14 You shall comply with and act in accordance with best industry practice in relation to the appointment of Service Providers and shall also comply with the RGMA (Review of Gas Meter Arrangements), including but not limited to the requirement to provide file flows and information relating to any changes of Equipment.

7.15 Where you wish to use a Service Provider other than those which we recommend then you shall notify us of any such preferred Service Provider(s) which you wish to use and you shall indemnify us in respect of all costs which arise from your choice of Service Provider.
